### **Reading Pen**

#### Reading Pen - Oxford Dictionary Edition

This amazing little device has been revised and will now display it in large characters. It will read the word to you and then show or read a definition from the Oxford Concise Dictionary. If you are left-handed it flips its display over. With an Énglish voice, simple menu operation and enhanced scanning, you can also lock the dictionary access for use in tests It will display syllables, spell words letter-by-letter, read reversed out words even words split between two lines! The Reading Pen has adjustable speech voľume, spejed and pitch. It is small & handy, and batteries are included.

### **Time Timer**

#### The easiest timer with a visible red countdown

Unlike regular timers, the Time Timer gives a graphic concrete depiction of the time remaining in an activity. This helps learners with Autism and other learning difficulties, to have a better sense of how long they are expected to participate in a task, often leading to reduced anxiety and improved engagement. Its small size and durable, lightweight construction make it simple to carry. The clock can play an optional audible signal when the time has expired. One AA battery required (not included).

Sizes available: 3" (8 cm) , 8" (20 cm) and 12" (30 cm).

## Easi-Scope Digital Microscope

#### Magnify and send image to your PC!

An excellent classroom tool for magnification. Be amazed by how easy it is to use our hand held digital microscope. This simple plug and play device attaches to your computer via USB and includes its own LED lighting system. Hold the Easi-Scope over the object, focus by turning the top then take videos or still images using the single control button at up to x 43 magnification (on a 17" monitor). A wireless version is also available with a 10m range - move around and magnify anything in your environment while displaying it on your monitor.

## Attention Tracker

#### Allow self-monitoring and reduce task anxiety...

Create timed tasks and manage children in a nonintrusive manner with the Attention Tracker. This simple device is easily operated by the teacher though remote control and allows children to self monitor their behaviour. It can be used with all children who may have attention issues. Teachers or children can set the task time, 5, 10 or 20 minutes and the red, amber and erecon lights will indicate how for

green lights will indicate how far through the task you are. Reward or reprimand by adding or taking away time using the remote control. The Attention Tracker can also be used in counter mode where points are awarded for good behaviour. Requires 3 x AA batteries and the remote control requires 2 x AAA batteries. Dimensions: H11 x W12 x D12cm.

### Pop-up Concentration Desk Barrier

This barrier is an essential piece of equipment that can be used in the classroom and placed between pupils to play barrier games or encourage independent working. It helps to reduce visual over-stimulation by creating a neat, small space in which it is easier to concentrate on the task. Ideal as a privacy partition for children with concentration problems. Lightweight and easily folded and stored in a small bag. Barrier size: H32cm x W117cm. Partition Size: H32cm x W32cm x L32cm. The barrier needs to be used on a flat, unvarnished surface and suction pads work best when moisture is added.

### Rainbow Easi-Scope Set

#### Set of 6 mini Magnifiers

Easi-Scope is now available as a colourful set of 6. Rainbow Easi-Scope is child friendly and a great resource for in class investigation, or for those with visual impairment.

Simply plug into a laptop or PC and see everyday objects close up! Windows and Mac compatible software provided. Magnifies up to 43 times.

LED lighting system in each microscope.

## educational technology

### **Easi-View Pro Magnifier**

#### Position anything under the camera, then project!

Easi-View Pro is a premium quality visualiser. Position items under the camera, connect it to a projector or computer and show everything on your interactive whiteboard, live as it happens. Or use it as a support for people with visual impairment to project onto a screen.

The powerful zoom allows you to view detail often not visible to the human eye. Take pictures or video using the camera function and record audio via the internal microphone. Tripod base for stability. This visualiser features a 5 megapixel camera 6x manual zoom and 4 x super bright LEDs on a separate aooseneck.

## Talk Tracker - Group Recorder

#### Record peer interaction, meetings or language skills

A wireless group microphone which records up to 4 hours of direct speech. It is small, light and easy to use. Files are stored as MP3 or WAV, which are then easily transferred to your computer via USB. Use in meetings to record minutes, or use the Talk Tracker to keep track of how children are progressing with their peer interaction. Simple to use, this great resource can be placed within a group of children to record their conversations. Playback on the device or simply download via USB. Charged through USB. People should be informed they are being recorded. Use business, AAC progress reporting, role play,

### **Easi-Headphones**

debating, 2nd language

practice and more!

Super flexible, comfortable to wear earphones for all educational activities. With replaceable ear cushions)

Robust headphones with replaceable parts, designed especially for schools. With an ultraflexible and comfortable headband, they are easy and robust to wear. To make them last longer, and for improved hygiene, the ear cushions and quick release cable are replaceable! The ear cushions have been designed to cover the whole ear to minimise outside noise and to increase comfort. The cable is quick release to reduce strain. Available in packs of 1, 10 or 15. Suitable for 5 to 16 years.
