Speech Therapy & Assistive Devices

Category 1  
**Literacy, Low-Tech Communication  
& Enabling Devices**

1-01

### Literacy Strip - Single 4" Fabric

This velcro resource makes your books more accessible to symbol users. Attach it to your book and provide symbol support to non-literate users and encourage inclusion in reading times.

- Single Strip for top or bottom use.
- Adjusts with elastic straps to fit books from 20 to 30 cm in height. Simply slide onto front or back cover of book.
- Made with the Loop (fuzzy) side of Hook & Loop (on both sides of strip).
- Size 10 x 24 cm.

**R377.01 (incl. VAT)**

1-02

### Literacy Flip Strip - Fabric

Simply add pictures or words and flip to create a new sentence every time! This is useful for creating flexible sentence structures, practicing sentence variations and providing activity or theme based vocabulary to people with communication difficulties.

- Sixteen, 10 x 10 cm pages.
- Made of looped, velcro receptive fabric.
- Pages grouped in sets of four, aligned horizontally.
- Pages affixed to plastic stabilisation board with metal rings.
- Available with Fabric or Clear Page. Please specify when ordering.

**R695.26 (incl. VAT)**

1-03

### Literacy Flip Strip - Clear

Simply add pictures or words and flip to create a new sentence every time! This is useful for creating flexible sentence structures, practicing sentence variations and providing activity or theme based vocabulary to people with communication difficulties.

- Sixteen, 10 x 10 cm pages.
- Made of looped clear pocket pages.
- Pages grouped in sets of four, aligned horizontally.
- Pages affixed to plastic stabilisation board with metal rings.
- Available with Fabric or Clear Page. Please specify when ordering.

**R818.89 (incl. VAT)**

1-04

### Portable Waist Communicator - Royal Blue

Wear the Communicator on your belt and flip it open to communicate with pictures/words. Equipped with six 10 x 22cm Velcro fabric pages, to which you can attach symbols or words with a 'hook' velcro strip or coin (available separately) attached.

- Has a zip on the outside cover for personal items/extra pictures.
- Back of cover has loops to fit any belt up to 5cm wide.
- Belt not included.

**R640.18 (incl. VAT)**

1-09

**R392.92 (incl. VAT)**

1-10

### Vinyl Alphabet Stickers - for Eye Gaze (E-tran) Frame

These brightly coloured and durable vinyl stickers can be stuck onto an eye gaze frame, allowing the user to look at the letter they wish to communicate to their partner.

- This is a cost-effective and simple means of achieving communication for literate people.
- Colour-coding can be used to clarify the selected letter - the user would look at the coloured circle to indicate the colour of the letter they want, and then at the group of letters containing the letter they want.

\*\*Requires Eye Gaze Frame - not included.

**R128.65 (incl. VAT)**

1-10

### Eye Gaze Frame with Stand - Perspex

Looking at things you like, need or want is one of the first and easiest ways of making choices. Eye gaze frames have been developed as an effective way of using eye pointing for choice making and communication. Pictures, words or symbols can be placed on the frame. Positioning the transparent frame between the user and "listener" makes it easier for them to see where they are looking.

- Clear plastic frame and stand.
- Detachable base - use on a desk or hand held.
- Dimensions: 3mm thick clear perspex; Board 45 x 35cm
- Weight of board (excluding stand) 0.42kg;
- Stand: 45 x 15 x 5cm.
- Vinyl colour-coded alphabet stickers are an optional extra (not included).

**R867.81 (incl. VAT)**

1-11

### Velcoins 13mm Hook White Self Adhesive 25m (Generic Brand)

1-16

### Zygo Head Pointer Rear Strap with iPad Tip

Zygo Head Pointers provide efficient pointing from a psychologically and cosmetically sound perspective - the chin. Unlike forehead protrusion pointers, an out from the chin device allows closer proximity to the item being accessed and reduces the head movement needed to activate such a device.

- Doesn't interrupt either the wearer's field of vision or the full view of the wearer's face.
- Rear Strap model - this model's yoke assembly is standard size, but the rear knob adjustment portion of the standard model's headband has been replaced with a hook and loop strap closure. This is particularly useful when the wearer is seated against any headrest mechanism, where the standard model's knob would cause discomfort.
- This model accommodates adult wearers with slightly smaller than standard headbands, which the overall yoke size reduction of the Tiny Tot model is inapplicable.

**R7,677.04 (incl. VAT)**

**Discontinued - no longer available to order. Sorry!**

RT275-2020  
Speech Therapy & Assistive Devices

Category 2  
**Communication & Assistive Devices**

2-02

### Talking Tiles (single unit - requires 3x AAA batteries)

Record and playback a single message consisting of 80 seconds of speech, music or sound effects via the built-in Microphone and Speaker.

- Includes a removable clear cover that allows you to create pictures, symbols or words to match your recordings.
- Includes an AUDIO-IN socket which gives the option to record audio directly from a CD Player or computer.
- Locking switch to protect messages from accidental erasure and wall mounting holes.
- 3 x AAA batteries (not included).
- Messages are re-recordable - reuse time and time again!
- Dimensions: 85 x 85 x 25mm.
- Single unit in ONE of the following colours: blue, green, red, white, black or yellow.

**R419.08 (incl. VAT)**

2-03

### GoTalk 20+

GoTalks are battery powered augmentative/alternative communication (AAC) devices used by people who can not communicate well by speaking. Another person (a teacher, sibling or friend, for example) records any messages the user will likely need, in any language, dialect or accent. An overlay of pictures (or words or symbols) is created. The pictures help the user remember where to find messages. The overlay is slid into the GoTalk, and then the user can "talk" simply by pressing on a picture to play a message.

- GoTalk 20+ is lightweight and rugged.
- Has a 100 message capacity (20 keys, each 2.5 cm square, and five recording levels).
- PLUS five 'core messages' which stay the same on each level so you don't need to re-record essential messages for each level.
- Total 15 minutes recording time.
- 2 AA Batteries (included).

**R3,975.73 (incl. VAT)**

2-08

### GoTalk 9+

GoTalks are battery powered augmentative/alternative communication (AAC) devices used by people who can not communicate well by speaking. Another person (a teacher, sibling or friend, for example) records any messages the user will likely need, in any language, dialect or accent. An overlay of pictures (or words or symbols) is created. The pictures help the user remember where to find messages. The overlay is slid into the GoTalk, and then the user can "talk" simply by pressing on a picture to play a message.

- GoTalk 9+ has a 45 message capacity (9 keys, each 5.5 x 4.25 cm, and five recording levels).
- It also has three 'core messages' which stay the same on each level so you don't need to re-record essential messages for each level.
- 5 levels of recording, with a total of 9 minutes recording time.
- Uses 2 x AA Batteries (included).

**R3,513.03 (incl. VAT)**

2-09

### GoTalk 9+ Lite Touch

An AAC device with 5x extra touch sensitivity and supports those with limited to no speech.

Product Features:

- Records and stores up to 45 messages in five levels.
- Nine programmable buttons allow the user to personalize each level with pictures and vocal recordings.
- Includes three additional core buttons for frequently used words or phrases across levels.
- Offers sequential recording for quick set-up and re-recording.

**R5,052.89 (incl. VAT)**

2-16

### GoTalk 32+

GoTalks are battery powered augmentative/alternative communication (AAC) devices used by people who can not communicate well by speaking. Another person (a teacher, sibling or friend, for example) records any messages the user will likely need, in any language, dialect or accent. An overlay of pictures (or words or symbols) is created. The pictures help the user remember where to find messages. The overlay is slid into the GoTalk, and then the user can "talk" simply by pressing on a picture to play a message.

- The GoTalk 32+ has five levels, giving this talker a 163 message capacity.
- The message keys record for 8 seconds and the three core vocabulary keys record for 17 seconds.
- It has a quick record feature, volume control, a built-in handle and keyguard, an overlay storage compartment and instructions printed on the back.
- Recording time: over 27 minutes.
- 2 AA Batteries and shoulder strap included.

**R4,437.19 (incl. VAT)**

2-17

### GoTalk Express 32

The GoTalk Express 32 has all the functions of a GoTalk device as well as additional features.

- The Express 32 is rugged, attractive, boasts great sound quality and includes a shoulder strap for portability.
- Surround-message LEDs (lights) for visual prompts, an option to add a 1.5 second auditory cue to any message.
- The GoTalk Express 32 is a fully functional scanning device, ideal for beginning or experienced communicators.
- The Standard method works like any GoTalk - touch a message key and it talks.
- With the Express method, users can link messages together to play in sequence. These messages will play seamlessly in the order selected to simulate typing.
- Comes with an adapter that will continue to power the Express 32 in the compartment.

**Discontinued - no longer available to order. Sorry!**

**R11,676.25 (incl. VAT)**

2-23

### Echo Voice EV6 Speech Enhancement System

The EchoVoice EV6 is a compact voice amplification system that is sensitive enough to dramatically amplify the faintest voice and is ideal for classroom teaching.

- With a 12 Watt digital amplifier providing high power audio output and great quality, the user can control the volume of their own voice in different environments.
- A necklace and belt clip attachment that clips onto the amplifier makes the device easy to carry and simple to wear and remove.
- A fast charge of 4-6 hours and talk time of 8-9 hours also benefit people using their voice for long periods of time.
- No feedback unlike other speech amplifiers of its kind.
- Digital touch buttons for ease of use.
- Smart, convenient carry case.
- Supplied with a lightweight headband type boom microphone and a transdermal (throat) microphone.
- Intelligent charge circuit with excellent battery life.

**R6,577.57 (incl. VAT)**

2-25

### Echo EV200 Wireless Lapel Microphone System

The Echo® EV200™ is a multi-purpose 2.4G wireless microphone system consisting of a lightweight lapel microphone transmitter and a mini receiver. The receiver picks up speech from the transmitter.

- Can be used as an audio source for a wide variety of systems such as speaker amplifiers, communication equipment and personal listeners.
- Speakers are not included.

**R4,154.63 (incl. VAT)**

### USB Switch

USB Switch is a low profile 75mm switch with a built-in USB interface. The switch can be configured to operate as a wide variety of keyboard, mouse and gamepad functions and is programmed via an integral LED display. Available in Purple only.

#### FEATURES:

- Advanced settings including Acceptance Delay, Ignore Repeats, Maximum Press Time etc. to allow adaptation for tremors, ataxia, chorea and other motor deficits and neuromuscular conditions.
- Two additional 3.5mm switch sockets separately programmable sockets allow up to two more switches to be plugged in.
- Works with PC, Mac, Chromebook and Android Tablets.
- Low profile and low operating force.

**R1,248.80 (incl. VAT)**

3-15

### Puff Switch from GlassOuse

Puff Switch is designed for GlassOuse V1.2, or you can connect it to any kind of adapted device offering 3.5mm jack plug in for external switch controls. Unlike regular sip and puff systems, Puff Switch uses an electronic module to do the clicks via puffs. Simply puff /blow towards to the switch to perform the clicks.

- The switch works with a coin size battery – extremely easy to change – and the battery life can go up to two months.
- The smart battery of Puff Switch will turn the switch off automatically in one hour if it is not used, to enjoy a longer battery life.
- The switch can be turned off manually via pressing the small button placed on the module.
- Dimensions: 170 L x 24.5 W x 11 D mm

**R2,450.56 (incl. VAT)**

3-16

### Bite Switch from GlassOuse

Bite Switch comes with a mono 3.5mm jack connector and it can be paired perfectly with GlassOuse V1.2 or any kind of adapted device offering 3.5mm jack input.

- With its flexible cable, Bite Switch can be adjusted according to your need and it is super lightweight.
- The silicone cover protects the switch module and it is easy to change and clean.
- Bite Switch has been tested 100.000 times under 3 tons of pressure to meet the needs of heavy-daily-use.
- Dimensions: 183 L x 18.2 W x 10.2 D mm

**R910.70 (incl. VAT)**

3-17

### Simple Switch Interface

Simple Switch Interface is a simple, convenient way to connect up to two switches to a computer to access most assistive technology software packages.

- The Simple Switch Interface unit may be configured to give space and enter or left and right click to suit most requirements.
- It is compatible with all PC and Mac platforms fitted with a USB socket.
- It cannot be connected to a PS/2 socket even with an adaptor plug since Simple Switch Interface makes use of features which cannot be accessed via the PS/2 connector.

**R855.01 (incl. VAT)**

3-18

### JoyCable 3 - 2 switch input w/Switch Driver

The Smartbox JoyCable lets you attach one or two 3.5mm switches to your communication aid.

- Simple USB 2.0 connection and quick setup make the JoyCable an easy way to get started with switches, or expand an existing communication setup.
- The JoyCable is ready to use with Grid 3 right out of the box to access every part of your communication aid.
- Can also be used with any Windows software that allows for joystick input and is supported by most switch accessible software.
- Comes with Smartbox's Switch Driver software to allow it to be used with programs that do not directly support switch access.

**R1,315.03 (incl. VAT)**

3-19

### APPLICator iPad Switch Interface

Get switch access to your iPad and music with the APPLICator, previously known as Switch4Apps Switch Interface, the only switch interface providing access to both (switch accessible) Apps and Music in one device.

- Specifically designed around user needs, it is simple to set-up and use and loaded with features to cater for all requirements.
- Pair the APPLICator (Switch4Apps) with your iPad by selecting it in the Bluetooth menu (no PIN entry required).
- Connect any wired switches to one or more of the four, programmable, switch inputs.
- Using the built-in display, select the function of each switch from the choice of 13 keyboard functions, 8 media functions and one OS function.
- For data entry press the virtual keyboard button to deploy the on-screen keyboard.
- Works with iPad, iPad mini, iPod (3rd generation and later), iPhone (iOS 5.0 onwards)

**R2,288.06 (incl. VAT)**

3-20

### Battery Device Adapter - AA size (batteries not included)

Convert any battery operated toy or appliance into a switch activated device by inserting this adapter into the battery compartment of simple on/off toys.

- Available in AA and C/D battery size.
- Please specify when ordering.
- Batteries not included.

**R301.06 (incl. VAT)**

3-21

### Battery Device Adapter - C/D size (batteries not included)

Convert any battery operated toy or appliance into a switch activated device by inserting this adapter into the battery compartment of simple on/off toys.

- Available in AA and C/D battery size.
- Please specify when ordering.
- Batteries not included.

**R301.06 (incl. VAT)**

3-24

### SimplyWorks Control Pro

The SimplyWorks Control Pro is a two channel controller for battery operated toys and small appliances. The unit may be used with any of the SimplyWorks transmitters to control toys, lamps, fans, or any battery operated equipment via a standard 3.5mm jack plug. It can operate with both wired and wireless switches and any SimplyWorks transmitter.

Features:

- Works with any SimplyWorks transmitter to control battery operated toys or other output devices.
- Allows up to three wireless and one wired switch to be paired with each channel.
- 10 Metre operating range.
- Automatic power saving mode - no on/off switch.
- Long battery life.
- Choice of Direct, Latched, Timed (seconds), Timed (minutes)
- Two Co-Operative modes of operation.
- Two independent channels.

**R2,288.06 (incl. VAT)**

3-25

### SimplyWorks Control Pro inc. 2 x Simplyworks Switches

The SimplyWorks Control Pro is a two channel controller for battery operated toys and appliances and also benefits from two co-operative modes. Can be fastened to a toy or appliance, it offers flexible control of the toy/device's actions – select from Click (device will function while switch is pressed); Latch (device will stay on after switch is pressed, until it is pressed again; or Timed mode where the duration of the action can be specified. Comes with two Simplyworks switches.

- Allows for up to three wireless and one wired switch to be paired with each channel with a choice of Direct, Latched, Timed (seconds and minutes), operating modes - Selectable timed periods in timed modes.
- Operating range in excess of 10 metres.
- Single 3.5mm jack plug output via lead (supplied).
- Automatic power saving mode (no on/off switch) and Long battery life.
- Requires a SimplyWorks Wireless Switch, or any other wired switch, connected to a SimplyWorks Send.

**R4,845.87 (incl. VAT)**

3-27

### SimplyWorks Send

This single channel wireless transmitter converts any wired single switch fitted with a standard 3.5mm jack to work with Simply Works.

**R1,246.39 (incl. VAT)**

3-28

### SimplyWorks Receive 2

The SimplyWorks Receive 2 is a USB wireless receiver which forms the hub of the SimplyWorks system when used for computer access and will support up to six SimplyWorks transmitters of any kind.

- Supports the SimplyWorks Trackball, Joystick, Switch 125 & 75, Send, Send-6, Keyboard & Smooth Talker functions all via a single USB connection to the host computer and without dedicated driver software.
- Allows you the freedom to create wire-free, single or multi-user learning environments, reducing set up time and allowing you to concentrate on the learning tasks themselves.
- Compatible with all PC and Mac platforms that are fitted with a USB socket. - Makes use of advanced features that are not available on the PS/2 style connectors; so the unit cannot be used in the PS/2 socket of your computer even via an adaptor plug.

**R1,050.10 (incl. VAT)**

3-29

### Switch Adapted Toy - Domino Train Set

Load the magazine full of dominoes and press the 3.5mm switch to make the train chug along. Sound its bell and stand all the dominoes behind it in a line - perfect for knocking down. Great for developing awareness of cause and effect and introduction to switch use.

- 2 x AA batteries included.
- Switch not included.

**R1,359.59 (incl. VAT)**

3-29

### Switch Adapted Toy - Bubble Fun Machine

Engage and delight children and older learners alike with this brightly coloured and entertaining switch adapted bubble machine. Simply fill the machine with bubble solution as directed in the instructions, plug in switch and press and release it to activate the bubble machine.

- Great for cause and effect activities as well as general good fun!
- Suitable for use with any 3.5mm switch. ( not included).
- Please note that the colour of the bubble machine may vary.
- Includes 236ml of bubble solution to get you started.
- Requires supervision at all times.
- Dimensions: H21cm x W15cm.

**R1,270.48 (incl. VAT)**

3-29

### Switch Adapted Toy - Spinning Kaleidoscope Ball

Ideal for any darkened environment, this switch adapted Kaleidoscope Lamp gives a delightful display of multi-coloured, multi-patterned spinning illumination.

- Use any 3.5mm switch (not included).
- 3 x AA batteries included.
- Dimensions: 11.5cm x 8cm.

**R816.48 (incl. VAT)**

3-30

### Switch Adapted Toy - Robbie Rabbit

Robbie Rabbit hops along then sits, raises his ears and squeaks. Promotes understanding of cause and effect and provides a fun and motivating introduction to the use of a switch.

- Accepts 3.5mm switch (not included).
- 2 x AA batteries included.

- 10 Metre operating range.
- Automatic power saving mode - no on/off switch.
- Long battery life.

**R1,147.64 (incl. VAT)**

3-33

### SimplyWorks Control

The SimplyWorks Control is a single channel controller for battery operated toys and appliances. Light weight and small enough to be fastened to a toy or appliance, it offers flexible control of the toy/device's actions – select from Click (device will function while switch is pressed); Latch (device will stay on after switch is pressed, until it is pressed again); or Timed mode where the duration of the action can be specified.

#### FEATURES:

- Choice of Direct, Latched, Timed (seconds and minutes) operating modes - Selectable timed periods in timed modes.
- Operating range in excess of 10 metres.
- Single 3.5mm jack plug output via lead (supplied).
- Automatic power saving mode (no on/off switch).
- Long battery life.
- Requires a SimplyWorks Wireless Switch, or any other wired switch connected to a SimplyWorks Send.

**R1,441.48 (incl. VAT)**

3-35

### BJ ToyBox Controller

Control up to four toys or switch adapted devices easily from your computer using the software provided.

- Choose from 1, 2, 3 or 4 onscreen buttons.
- Display the onscreen buttons in 1 or 2 lines.
- Customize the appearance of each onscreen button.
- Use to teach scanning with one or two switches.
- Configure the scanning time.
- Choose from direct, timed or On/Off operating mode.
- Execute the action from other applications.
- Play a sound when the device is activated.

**R2,068.94 (incl. VAT)**

3-36

### SimplyWorks Energise

The SimplyWorks Energise is a feature rich Mains Controller allowing switch users to control up to two electrical appliances with wired or wireless switches.

#### Features:

- Energise includes SimplyWorks wireless technology, allowing interference free activation of appliances at up to 10 metres.
- Six selectable modes enable the user to choose how, and for how long, the appliance(s) will be turned on.
- Four modes give independent switch and appliance activation: two modes provide co-operative control of both appliances.
- SimplyWorks Energise will accept any wired, single, switch or the SimplyWorks Switch 125; or a combination of both.

**R3,400.78 (incl. VAT)**

3-40

### Universal Mounting Plate

Universal Mounting Plate simplifies positioning your switches, by combining several mounting plates into one package. This mounting plate package accommodates a wide variety of devices and alleviates the expense of ordering multiple plates.

**R1,164.50 (incl. VAT)**

3-40, 3-53

### REHAdapt Switch Mounting Kit with Mini Clamp

This lightweight kit provides quick and easy positioning of switches.

- Includes a versatile small tube clamp, for attaching to poles between 13mm and 35mm diameter.
- Includes two 10mm diameter tubes totaling 400mm length, and quick shift joints so you can easily find just the right position.
- Includes plates for the most popular switch sizes: Buddy button, Specs, Candy Corn, Big Mac, Jelly Bean and more.

**R4,189.27 (incl. VAT)**

3-41

### Rehadapt GoTalk Express 32 Device Adapter (requires MagicArm)

This is a mounting cradle which holds your GoTalk 32 and Express 32 communication device securely, and allows mounting onto a suitable arm.

- It is compatible with the Magic Arm.
- This is a heavy-duty version and mounting is secured with screws for added security.

**R1,926.71 (incl. VAT)**

3-42/48, 4-93

### REHAdapt MA-GoTalk 4, 9, 20 Adapter

Device adapter for mounting GoTalk to MagicArm.

- Fastening parts included.
- 170x150mm.

**R1,045.82 (incl. VAT)**

3-43, 3-51

### REHAdapt MagicArm

This strong, reliable switch mounting system is designed for fast, easy and secure placement of any switch. The arm extends and clamps onto most flat or tubular surfaces, such as tabletops and wheelchairs. Utilises Super Clamp for mounting to a table, chair, bed, or just about any other surface.

- Includes versatile Super Clamp for angular or round elements sized 13 - 55mm.
- Features 3 pivot points with a range/reach of 52-cm.
- Can hold up to 2.3 kg.
- Articulated arm with balljoints and locking knurled knob.
- Can be used with a tablet holder to mount tablets.

**R3,126.72 (incl. VAT)**

3-46

### REHAdapt Floorstand TeleLock

The Floorstand is a mounting solution for the use of communication devices or notebooks where normal mounting accessibility is restricted such as in bed or on a sofa, recliner, armchair or wheelchair. The Floorstand makes it easy to position communication devices with greater mobility and versatility, especially eye controlled devices.

- The telescopic column is gas-spring loaded and reaches heights between 46-198cm.
- The casters are lockable and rubber coated for easy, fixed positioning (castor clearance is 9cm).
- At every joint is a "ratchet-style" handle used to easily adjust the device position without the use of tools.
- Easy 5 minute set-up.
- Holds up to 10kg.

**R13,206.07 (incl. VAT)**

3-47

### REHAdapt Table Clamp OneHand HD

TableClamp OneHand - change the position of your device easily with a fingertip! It has never been that simple to get the preferred position so easily.

- Adjust height of pneumatic spring to move heavy or light weight devices without effort.
- The device can be adjusted 90 degrees vertically and 360 degrees horizontally.
- TableClamp OneHand for device weights from 13 lbs up to 28,6 lbs (6kg - 13kg).

**R9,708.84 (incl. VAT)**

3-49

### REHAdapt ClampOnMount

The ClampOnMount offers flexibility and range for positioning your device. It is completely 3-dimensionally adjustable making it possible to position the user's device anywhere it is needed.

- It can be secured to a flat surface or round poles, and is sturdy and versatile.
- At every joint is a 'ratchet-style' handle used to easily adjust its position without the use of tools.
- Supports up to 5.4 kg.

**R7,513.20 (incl. VAT)**

3-50

### REHAdapt Table Stand XL

This mount can be placed on a table or on the floor, with automatic leveling on uneven surfaces, ensuring a sturdy mounting environment for all types of communication devices.

- Height adjustable between 5 and 500 mm.
- The ball-and-socket style mounting unit allows precise and flexible positioning.
- The wide variety of adapter plates mean that almost any communication device can be mounted successfully.

**R7,470.17 (incl. VAT)**

3-51

### REHAdapt Light 3D Table Mount 2 Tube Quick Shift (SLS)

Table mount with two tubes and three joints with lever. Combine with any cradle/device with Spigot Link System.

- 30cm & 25 cm Tubes.
- Load Capability, 1.25 kg.

**R3,840.27 (incl. VAT)**

3-51

### REHAdapt L3D-GA-Universal Adapter-R-116/135 (Permanent Adhesive)

Generic device adapter for mounting devices to REHAdapt's LIGHT 3D-System with Spigot Link System (SLS).

- Permanent fixation via strong adhesive tape.
- 116x135mm.

**R1,601.61 (incl. VAT)**

3-51

### REHAdapt Light 3D Table Mount 2 Tube Quick Shift (UDS)

Table mount with two tubes and three joints with lever. Combine with any cradle/device with Spigot Link System.

- 30cm & 25 cm Tubes.
- Load Capability, 1.25 kg.

**R5,238.68 (incl. VAT)**

### Inclusive Gooseneck Flexible Mounting Arm w/Super Clamp inc. Ping

The Gooseneck Universal Mounting Arm enables you to mount switches and lightweight communication devices quickly and easily. The flexible arm allows devices to be positioned optimally for user comfort and ease of access.

- Includes Super Clamp.
- Requires a mounting plate - please specify what you would like to mount. - Extends to 51 cm.
- Ping pong switch included.

**R8,789.76 (incl. VAT)**

3-55

### Desk Mounting Arm with VESA Plate

Constructed with solid steel, elegant die casting aluminum and integrated with innovative counterbalance technology. The desk arm is designed with cable management to provide neat desk space and is ideal for offices, homes, schools and many more.

- Efficiently frees up space on your desk and easily move your LCD monitor into the best ergonomic position.
- Highly adjustable arm moves up, down, forward and back with just a touch.
- With weight capacity of 6kg this desk mount features 360 degree monitor rotation, -90 degree plus 90 degrees tilt, 180 degrees swivel and vertical distance height adjustments.
- The monitor mount.
- VESA plate is compatible with 75 x 75 or 100 x 100 spaced holes.

**R1,638.97 (incl. VAT)**

3-57

### Tablet Holder Fit 10 with AMPS adapter & MagicArm

This strong, reliable tablet mounting system is designed for fast, easy and secure placement of any 10.1" tablet screen . The arm extends and clamps onto most flat or tubular surfaces, such as tabletops and wheelchairs. Utilises Super Clamp for mounting to a table, chair, bed, or just about any other surface.

- Includes versatile Super Clamp for angular or round elements sized 13 - 55mm.
- Features 3 pivot points with a range/reach of 52-cm.
- Can hold up to 2.3 kg.
- Articulated arm with balljoints and locking knurled knob.
- By removing a single spacer from the holder, you'll have the ability to easily slide your tablet in and out of the holder. Keeping the spacer installed will keep your tablet securely locked in the holder.
- The holder has industry standard mounting patterns, including 75x75 VESA, 100x100 VESA and AMPS.

**R6,812.80 (incl. VAT)**

3-57/8/9

### REHAdapt Permanent Mounting Plate & MagicArm

This strong, reliable switch mounting system is designed for fast, easy and secure placement of any switch. The arm extends and clamps onto most flat or tubular surfaces, such as tabletops and wheelchairs. Utilises Super Clamp for mounting to a table, chair, bed, or just about any other surface.

- MagicArm (MA), including SuperClamp.
- Articulated arm with balljoints and locking knurled knob.
- Includes versatile clamp for angular or round elements sized 13 - 55mm.
- Features 3 pivot points with a range/reach of 52-cm
- Can hold up to 2.3 kg.

**R4,728.32 (incl. VAT)**

3-58

### Tablet Holder Fit 11 with AMPS adapter & MagicArm

This strong, reliable tablet mounting system is designed for fast, easy and secure placement of any 11.6" tablet screen . The arm extends and clamps onto most flat or tubular surfaces, such as tabletops and wheelchairs. Utilises Super Clamp for mounting to a table, chair, bed, or just about any other surface.

- Includes versatile Super Clamp for angular or round elements sized 13 - 55mm.
- Features 3 pivot points with a range/reach of 52-cm.
- Can hold up to 2.3 kg.
- Articulated arm with balljoints and locking knurled knob.
- By removing a single spacer from the holder, you'll have the ability to easily slide your tablet in and out of the holder. Keeping the spacer installed will keep your tablet securely locked in the holder.
- The holder has industry standard mounting patterns, including 75x75 VESA, 100x100 VESA and AMPS.

**R6,932.32 (incl. VAT)**

**R500.96 (incl. VAT)**

4-24

### Single Hand Keyboard, Left Hand Side - Black

The Single Hand Keyboards have been developed as a logical step forward to meet the needs of those who need to perform keyboard operations with one hand. The special shape and letter layout have been very carefully planned, taking into account the limited number of keys that can be accessed quickly and comfortably.

- The shape matches natural hand movement and the key arrangement minimize finger movement, increasing speed and relieving frustration.
- Designed for 'Touch Typing.'
- These keyboards have Push-On Push-Off keys for Shift, Control and Alt functions; essential for single hand operation.
- The unique switchable dual layout feature of Maltron keyboards has now been developed for single handed keyboards to give an alternative number entry option. For intensive number work the flat number panel alongside the letters is not ergonomic and can lead to fatigue as there is nowhere to rest the hand.

**R7,495.20 (incl. VAT)**

4-24

### Single Hand Keyboard, Right Hand Side - Black

### nAbler Joystick

This robust unit has been designed to improve computer access with many special features such as a speed control key, latching drag switch and buttons that allow only up/down or left/right movements of the cursor. Cursor movement is achieved by moving the joystick which certain users find easier, particularly those with more severe motor impairments. All of the switches on the front panel, with the exception of the speed control, can be duplicated with remote switches by using the connector on the rear of the unit. Five cursor speeds can be selected by the pressing the cursor speed switch.

#### FEATURES:

- Plug and Play, no additional software required.
- PS2/USB, Windows/Mac compatible.
- Supplied with additional interchangeable T-Bar and Foam Ball handles.
- Removable finger guard.
- Mounting Points.
- Reversible Right/Left buttons.

**R5,127.66 (incl. VAT)**

4-26

### nAbler Pro Joystick

The n-ABLER Pro Joystick is specifically designed for computer users with limited hand control, motor skill difficulties, poor hand-eye-coordination, limited manual dexterity, involuntary muscle spasms and hand or wrist tremors.

- The n-ABLER Pro Joystick is a computer mouse emulator but, with fingertip control requiring only minimal hand movement, reduces wrist and elbow fatigue.
- The symmetrical design allows users to work with either hand without angling the wrist, it can also be configured for 'left-handed' operation.
- A large, integrated hand/palm rest makes work posture more relaxed, reducing strain and tension.
- Suitable for all age groups with motor skill difficulties and for those whose work requires long periods at the computer.
- The 'Anti-Tremor' facility is invaluable for anyone suffering with tremors or involuntary muscle spasms and for older people with movement impairments.

**R5,387.78 (incl. VAT)**

4-27

### nAbler Trackball

The 'nABLER' emulates a computer mouse but, with fingertip control and the need for only minimal hand movement, reduces wrist and elbow fatigue, requires far less effort and is less tiring. The symmetrical design enables users to work with either hand without having to angle the wrist, and the unit can also be configured for 'left-handed' operation. Its large, integrated hand support/palm rest makes work posture more relaxed and less strained.

#### FEATURES:

- High mass, 63mm, free-running ball for easy cursor control.
- Colour coded buttons mounted sub-flush to prevent accidental activation. - Switchable left and right click buttons.
- Sockets for external left/right click buttons.
- Double click and latching drag lock buttons.
- X-Y axis & Scroll button for up/down or left/right only cursor movements & scrolling facility.
- Audible (switchable to mute) & visual warnings indicating selection/change of function.

**R4,214.85 (incl. VAT)**

4-28

### Tobii PCEye 5 – Featuring TD Control Software

PCEye 5 is a compact eye tracker that enables people with physical disabilities to control a Windows computer with their eyes.

- Replace a traditional keyboard and mouse with your eyes and surf the web, connect on social media, play games, create documents and more. Simply connect the PCEye to your Windows device via USB, and access everything your computer has to offer, intuitively and independently with TD Control Software (included).

- Use the PCEye on Windows tablets, laptops and desktop monitors, with screens up to 27" in size. Please check the specifications for exact requirements. It can be used both indoors and outdoors, even in bright light.

- Based on 15+ years of testing across different ethnicities, eyewear and lighting conditions, our newest eye tracker delivers precise screen target selection and the fastest recovery time if the device loses track of your eyes.

### Grid 3 Communication Software (Single User)

Grid 3 has thousands of features that makes it the benchmark for AAC software and the next generation of communication aids. Grid 3 is so simple to use. Swipe, drag and tap to open, close and manage your grid sets in the Grid Explorer, which is accessible to users, allowing them to change grid sets independently.

- An updated and extended Symbol Talker to create a 4-stage progression from early communication right through to literacy.
- Making changes to grids is really straightforward. Our new editing interface uses a Ribbon, that will be immediately comfortable for anyone who has used Microsoft Office.
- It is entirely touch-friendly, so you don't need to carry a keyboard or mouse with your communication aid.
- Many of our users have a team of people that support them. Our Remote Editing feature allows AAC user's to give people remote access to edit their grids.

### Inclusive Eye Gaze Learning Curve - All 3 Titles (Single User)

The first ever collection of 54 fun and engaging interactive activities specially created to teach early eye gaze access and develop choice making skills. This collection takes children on the learning curve from assessment and cause and effect understanding through to using eye gaze for communication, learning and leisure.

- Can be used by teachers and therapists as an assessment tool to determine visual skills and potential use of eye gaze and as a progressive teaching tool that provides structure and lots of opportunities for practice at each level.
- All children on their first steps with eye gaze can use these activities to improve their accuracy and understanding of eye gaze in preparation for using other communication and learning software.

**R9,750.75 (incl. VAT)**

5-43

### Interactive Reading Library 1 & 2 Software (Single User)

The software reads the books aloud with highlighted text and lets students click on any word for identification.

- Features 16 books, picture-to-picture and picture-to-word matching exercises with a speech recording option.
- An easy-to-use management system lets you select books for each student and stores student performance results.
- Windows only; touch screen and switch accessible.

**R3,125.01 (incl. VAT)**

5-42

### IT Mouse Skills

A series of activities specially designed to teach mouse skills in an entertaining and visually appealing atmosphere. Learners are taken stage by stage through the many applications of the mouse. Introductions to each activity are provided and the successful completion of a task is met with a range of pleasing rewards.

- Move the mouse over an object, drag and drop, drag along a path and the use of drop-down menus are all represented.
- Various clicking activities can be found such as clicking anywhere, click timing and double clicking.
- Many games options are configurable, such as the complexity of the task.
- Colours, sound effects and background music may be similarly customised.

### Let's Go To Town

Let's Go To Town is designed to promote decision making and encourage discussion of the real-life activity at a basic level. The story and presentation has been aimed at students of all ages, principally with severe learning difficulties and/or little reading ability. Suitable for young children as well. The characters in the story interact with the user to help overcome any reluctance to engage with the computer and to motivate them to explore the various scenes. The story and presentation has been aimed at students of all ages, principally with severe learning difficulties and/or little reading ability. Suitable for young children as well.

Useful for:

- Gaining an understanding of sequences or events.
- Developing early reading skills.
- Practice in the use of a mouse, keyboard, switch, touch monitor, joystick or interactive whiteboard.

### Percy Gets Measuring

Join Percy the caterpillar and explore the subject of measurement in this game that includes a wealth of activities for children at Key Stage 1. In the usual, clear and clutter-free Percy style, this title introduces the topics of length, capacity and weight in a selection of interesting activities.

- Children can practice using a set of balances on-screen to compare and match weights. Length is explored with activities involving measuring and comparison (using standard and non-standard units), whilst the activities on capacity also use standard and non-standard units.
- Narrated throughout for easy unsupervised use.
- Three levels of difficulty allow the user to adapt the activities and tools available.
- Includes an extensive teacher's section with resources such as printable worksheets and certificates.

**Sensory Guru EyeFX Software (Single User)**

The Sensory Eye FX apps help early eyegaze users at the beginning of the eyegaze learning curve to learn eye control without risk of failure, and without a requirement for precise calibration.

- Highly motivating and enjoyable.
- Valuable part of an assessment or eye gaze introduction toolkit.
- Computer graphics card must support Direct X 11.

**R16,488.48 (incl. VAT)**

5-39, 5-44

**Show Me Math Software**

Show Me Math is for students who do not understand the basic relationship between computation and concrete representation. Focuses on the four operations of arithmetic: Addition, subtraction, multiplication, and division, using no number greater than twenty.

- Each math problem is illustrated with an animated movie.
- Assessments evaluate student progress with detailed record keeping to help you write IEPs.
- The instructional module helps students visualise math problems. Users can select answers on the keyboard, or by clicking on a number.
- The student can choose the "Show Me!" option, where the answer is illustrated with a short animated movie.
- Choose from four animated characters; sheep, ants, beans and ping-pong balls.
- Show Me Math is appropriate for any age.
- 3 installs per license

### Splash! All Ages Combined

A Value bundle which includes Splash! Primary and Secondary is a flexible tool that enables learners with a wide range of abilities to create accurate illustrations for Maths and Science.

- Splash! forms an accessible work space allowing students to carry out Maths, Science and drawing activities.
- Features full keyboard access, pointer only access or mixed mode control.
- Splash! Primary is aimed at Foundation phase, while Secondary comes with lots of easy-to-use resources for Maths and Science up to approximately Intermediate phase.
- These resources illustrate the huge range and diversity of activities and features that Splash! offers children ages 4 to 16 and older.

### Switch Skills 1

This collection of easy switch timing activities is fun for all ages.

- Racing cars: press when you see a car, to make it race.
- Gorilla: press when you see the fruit.
- Soccer Shoot: press to kick the ball.
- Ready Steady Go: press when the traffic light turns green and you hear "Go!"
- Catch the Crocs: press your switch when you see a crocodile. Can you get all six?
- Monster House: an introduction to switch scanning. Choose a door and press to see if a monster is inside.
- Sunflower: press when the bee reaches the middle of the flower.

5-15

### Switch Skills 2

Twenty activities at an elementary level. Press your switch or the touch screen when a big, bright object appears, and see an animated reward. Exciting music promotes interest. Higher level activities require more visual discrimination, although most can still be played successfully by those with severe visual impairment.

- Configurable options allow you to meet individual needs or develop learners' skills in small steps.
- Four activities provide opportunities for creative and experimental play by early switch users, e.g. the Spray Can zigzags over a wall and sprays paint when you press your switch.
- Topics range widely and should appeal to a wide range of ages.

5-15

### Switch Skills 3

Sixteen activities at a higher level than Switch Skills 2. These activities consist of both error free games and games that require good switch timing skills. These games work towards developing an understanding of switch scanning. The first activity is Splat the Clowns - watch a clown move across the screen and throw a custard pie at him when he reaches the middle. Other games of a similar nature have themes appropriate for older learners.

- Options are provided so you can control the level of difficulty in small steps.
- Two simple video games are provided at the end for learners who have grasped the concept of switch timing but need more practice.

5-15

### Switch Skills Champions

Every child can be a champion with these fun games that help develop switch timing skills. Try basketball, volleyball, boccia, ice hockey or hurdles. It includes a simple training activity for early learners. Just wait for a player to appear on the screen, then press your switch to win a medal.

- Change the difficulty level for each player.
- The program features five sports that are included in the Olympics or Paralympics.
- For one or two players - useful for developing turn taking skills.

### Switch Skills for Two Set 1

This CD contains 16 activities in carefully graded sections. In the 'Two Objects' section, choose to press the left switch (or space bar) to make the ballerina dance beautifully or the right switch to let the monster do his crazy dance. Or in 'Interacting Objects', choose to control a frying pan to try to hit the gopher. There are spacemen to jump into rockets and blast off, basketball players to help shoot baskets, a crocodile to be woken up and fed, musicians to allow to show off and much more.

- It provides an accessible environment to encourage the learner to move beyond the stage of cause and effect.
- Thinking, experimenting, observing and interacting are encouraged by providing simple activities that delight and engage.

5-15

### Switch Skills for Two Set 2

Eleven more activities for experimenting and progressing towards effective scanning skills.

- Build Up promotes the use of one switch to add items to the screen, with the second switch used to start the action or watch the animated reward. -Build a tin can tower and knock it down, make a rocket and launch it, blow up a balloon until it pops, or sit the children on the roller coaster and start the action.
- Move and Get activities are designed to move learners towards the skills required to use, for example, a scanning communicator.
- Activities include loading rates onto trucks, feeding the croc, bop more gophers on the head, give the ballerina different dancing partners and passing the ball along a line of basketball players to shoot.

5-16

### Switch Skills Scanning

The activities focus on developing switch scanning skills and are split into 5 sections with increasing levels of skill and complexity in very small steps.

- Begins with free-choice activities that allow experimental play. More demanding tasks with specific targets are then introduced.
- The CD features a wide range of themes, including music groups, rockets, a funfair, trains, farm, Treasure Island, and more!

### SwitchIt! Christmas Extra

This program helps learners to increase their ability to use switches and to demonstrate an understanding of language concepts. In addition, it helps stimulate and encourage movement and hand function, develop visual skills, and provide learners with access to a range of learning situations - particularly those limited in physical movement who cannot access traditional methods.

- SwitchIt! Christmas Extra can be used in 3 different ways:  
Event Sequences: 12 little animations each based upon a simple theme such as decorating the christmas tree. Each sequence has 5 steps, carefully chosen to maximise speaking and listening.
- Picture Building: build pictures and see them animate, or use the one-step option for basic cause and effect.
- Flash Cards: flip through a selection of large pictures that relate to the theme.

### Target and Touch Music

This new exciting CD-Rom is packed with motivating activities supporting the visual skills of locating, fixing and tracking static and moving objects. Target and Touch: Music is based around a variety of appealing musicians and their instruments and accompanying music.

- Highly structured program supports the development of skills required to use a touch monitor effectively, beginning at cause and effect levels and progressing through the stages of targeting and touching single, multiple, scattered and moving prompts onscreen.
- Activities are designed for use in special and mainstream educational settings, as well as with older users.
- Aimed at those developing early ICT, visual and coordination skills, the configurable activities are highly suitable for use on the interactive whiteboard, a touch monitor or computer and mouse.
- Teacher's notes and simple assessment and record keeping are included.

### The Learner's Library Musical Instruments

This title is part of a range of reference CD Roms designed especially for Key Stage 1 and provides information on a wide selection of musical instruments. Each instrument is accompanied by a colour photograph, together with its sound and a tune. This combines with two different levels of text (fully narrated for non-readers) for each entry that can be retrieved through the menu, index or search facility.

- Activities based on musical instruments, a scrapbook, spoken glossary and printable worksheets are all included in the program, which is fully configurable by the teacher.
- A great home-reference resource and ideal for homework!
- Includes detailed photographs and recordings of real instruments.
- Three fun activities reinforce learning.
- Features string, brass, woodwind and percussion instruments.

### Tobii Communicator 5 Gold (Single User)

Communicator 5 from TobiiDynamox is AAC software that aims to make communication more efficient. Communicator 5 also provides access to Infrared environment control, phone functionality, E-mail, Facebook and much more.

- It offers communication interfaces at a multitude of different language levels, from early symbol users to literate text users.
- Supports the use of any access method, from switches to eye tracking.
- The full Sono Suite range - an extensive collection of communication pages - plus the popular Symbolstix symbol library and Acapela voices are included.
- This software is delivered via E-Mail download.

R8,654.64 (incl. VAT)

5-37

### Tobii Gaze Viewer Software (Single User)

With Tobii Gaze Viewer and a Tobii assistive technology eye tracker, you can record real eye tracking data from any application like the Internet, e-books, games, movies and more.

- Save the data as single images or movies, with heat maps and gaze plots and use it to assess an individual's physical capabilities and cognitive understanding.
- This is done by making simple reports for eye gaze assessments, clinics, schoolwork, reading comprehension, clinical comprehension and much more - all done easily and instantaneously.

R6,358.61 (incl. VAT)

5-42

### Touch Balloons

Fun for all ages! Develop hand-eye coordination skills by popping balloons as they float past. Use the mouse, touch monitor or switch to target and burst the balloons.

- Choose a large pointer or a cross-hair to aim. An extensive menu allows you to choose direction of travel - up, down, left, right or, a real challenge, random! For the real expert you can also change the speed of travel and the number of balloons.
- Additional options change the background. You can choose from a range of colours and sky effects or use your own pictures - have the balloons float across a picture of the school.
- The program has bold or pastel colour choices to allow you to design activities to develop visual and tracking skills.

### Social Language Development Test Elementary

Many children with language impairment (LI) exhibit poor social interaction with others. These differences may appear as early as preschool and continue or intensify as these children mature.

- The Social Language Development Test Elementary is designed to assess language-based skills of social interpretation and interaction with friends, the skills found to be most predictive of social language development.
- You will gain insight into your student's social understanding and social language competency.
- Subtests consist of question-answering tasks, interpretations of photographed scenes, and verbal explanations.

**R5,245.07 (incl. VAT)**

9-22

### Social Language Development Test Adolescent

The SLDT A assesses students' language-based responses to portrayed, peer-to-peer situations. The test differentiates typically developing adolescents from those with language learning disorders or autism. There are five subtests with 12 items each. Test stimuli include photographs, scenarios presented verbally by the examiner, and audio recordings on a CD.

- Subtest A: Making Inferences
- Subtest B: Interpreting Social language
- Subtest C: Problem Solving
- Subtest D: Social Interaction
- Subtest E: interpreting Ironic Statements
- Only trained professionals familiar with language disorders such as a speech-language pathologist or psychologist should administer this test as it requires careful interpretation of learners responses.

10-35

### Aroma Diffuser including 4 essential oils

Compact, light and portable. A brilliant way to engage the olfactory sense that will resonate with many people with complex sensory needs.

- Just add your favorite essential oil on the refill pad, then press the power button and this product will start working. The refill pads are reusable and can be cleaned easily. It works like a very small fan but is absolutely silent.
- Long lasting fragrance - more than 6 hours lasting fragrance after a full charge.
- Safe to use - waterless design with no heat or spillages.
- USB Rechargeable - equipped with a standard USB charging interface, it can be charged anywhere.
- Includes 4 essential oils: Sleep Easy, Stress Relief, Breathe Easy and Spirit Lifter. Each supplied in 10ml amber glass bottles.
- Size: 9cm x 6cm

**R1,277.70 (incl. VAT)**

10-35

### Aromas Sensory Pack

Smell is closely linked to parts of the brain that process emotion and memory. Olfactory stimulation with pleasant aromas is a powerful calming or uplifting tool.

- 4 x Squashy Aroma Balls 5.5cm Orange, Rose, Lemon, Apple scented. Latex, phthalates & lead free (A)
- 1 x Scented Bell Dice 15 x 15 x 15cm (B) \*note: only one die supplied
- 1 x Aroma Huggabuddy Elephant or Giraffe (C)
- 1 x Aroma Diffuser (D)
- 1 x Essential Oils Therapeutic Starter Kit. Includes: Sleep Easy Blend, Stress Relief Blend, Breathe Easy Blend and Spirit Lifter Blend. Each supplied in 10ml amber glass bottles (E)
- Set of 10 Smell Bags with assorted items (F)

\*Contents may vary slightly and equivalents will be supplied where necessary.

**R2,885.36 (incl. VAT)**

10-36

### Sounds Sensory Pack

Music and sounds are an essential component of a sensory room. This is a complete set to stimulate the sense of hearing and for auditory perception activities. It Includes:

- 1 x Light Up Tambourine (A)
- 1 x Clatterpillar Bendy Instrument (B)
- 2 x Sound Puzzles (C)
- 1 x Scented Bell Dice 15 x 15 x 15cm (D) \*note: only one die supplied
- 1 x Snoezelen Themed CD for relaxation (approx 53 minutes) (E)
- 1 x Rain Tube for Mesmerising Bead Sounds (F)
- 6 x Bendy Bells - Wearable Bell Shakers (G)
- 6 x Scented Sound Balls (H)

\*Contents may vary slightly and equivalents will be supplied where necessary.

**R3,458.58 (incl. VAT)**

10-37

### UV Glow Sensory Pack

A collection of items that glow brightly in the presence of a UV light. These strong colours are an excellent calming tool and provide visual and tactile sensory stimulation in a darkened space, such as a sensory room or Dark Den.

This pack includes:

- 1 x UV Bulb 25w - Screw In (A)
- 5 x UV Stretchy Bangles (B)
- 2 x UV Glow Spaghetti (C)
- 1 x UV Glow Soft Toy (D)
- 1 x UV Torch (E)
- 1 x UV Putty Set of 6 Tub (F)
- 4 x UV Spine Balls - Mixed Sizes. Not bouncy - firm for gripping or deep pressure with rubbery texture. (G)

\*Contents may vary slightly and equivalents will be supplied where necessary.

**R1,991.82 (incl. VAT)**

10-38

### Fine Motor Sensory Pack

Building control, stamina and accuracy through a selection of activities aimed at developing fine motor skills. This carefully chosen selection includes:

- 1 x Wooden Shoelace Trainer (A)
- 1 x Wooden Cutting Board with Veg (B)
- 1 x Fine Motor Maze Game (Ants, Flowers or Sweets theme) (C)
- 2 x Squeeze-to-Wind-Up Animal Dynamo Torches (D)

### Fine Motor Maze Game - Ants or Flowers or Sweets theme\*

Guide the coloured balls to the right place through the maze, using the magnetic pen.

Planning, fine motor, visual perception development and great fun.

The board contains coloured balls which are moved across the maze under a clear plastic cover using pens with a magnet in their tip.

Practise skills needed for handwriting. Helps develop fine motor skills, hand/eye co-ordination, problem solving & visual tracking.

\*Theme will vary - either Ant Maze, Flower Maze or Sweet Jar Maze will be supplied depending on stock availability.
